

The Tunnelling Market in Europe:

Selected Major Current and Future Projects

This non-exhaustive summary of some of the larger current, planned and projected tunnelling projects in Europe is intended to provide a simple guide to market activity.

Data is organised alphabetically by country and the by project name within each country.

Tunnel lengths and completion dates are approximate.

Mack Brooks Exhibitions will welcome information providing additions, updates or amendments to these lists. These will be used for future versions of this report.
